

GSM Gate Opener

PFGOGSM-1 GSM Gate Opener

The GSM Gate Opener is ideal for remote control of automatic gates, barriers, doors, home automation and more.

It is simple to use and easy to program. You can authorise up to 100 mobile phones to dial in and open the gate.

The unit can be programmed by 'dial in' or text message. Numbers can be added or removed, allowing you to keep a keen focus on security. A contract or pay as you go sim card is needed to operate the unit
